PLEASE NOTE:

A school may register more than one team but only one team from each school building will be ranked for the purposes of awards and consideration for earning the right to compete at the State competition. If you plan to have more than one team participate in the events, duplicate and complete a copy of this form and include a Regional registration fee for each team. When scheduling the team for events, you will need to have the second team compete at the same time or after your "scoring" team on the day of the competition. Call Scot Conant (269-276-3272) or Marty Buehler at 269-948-4409 if you have questions.
